### Patients

Patients are seen at Edinburgh Dental only if they have been referred from their own dentist or orthodontist. Your dentist or orthodontist will normally write to ask for surgical treatment to be carried out as part of your overall treatment plan. This may also be part of a course of orthodontic treatment being undertaken at the same time.

### Treatment

Your first appointment will normally be for a consultation only, when the treatment plan will be discussed and explained. Treatment is then arranged for the next appointment. This is because oral surgery requires both preparation and time for recovery.

Treatment is carried out, depending on the patient and the procedure, under either local anaesthetic or sedation. A full explanation of this will be given at the first (consultation) appointment.

Full instructions for both pre and post-operative care will be provided.

### Private Practice

Both NHS and private patients are welcome but some forms of treatment may only be available on a private basis.

### Fees

Private fees may be settled by arrangement. NHS patient fees are payable at the treatment appointment. All major credit cards (except American Express) are accepted.

### Failed Appointments

All patients (including children and those exempt from NHS fees) will be charged for the time wasted when an appointment is broken or cancelled at short notice. (Minimum of 48 hours notice required) Your acceptance of an appointment is taken as agreement to pay any fees incurred for failed appointments

## Surgery Hours

The practice is open Monday to Friday from 9am to 6.00pm.
